SAVIO LIBRO COMPACT / design Francesco Barbi
277

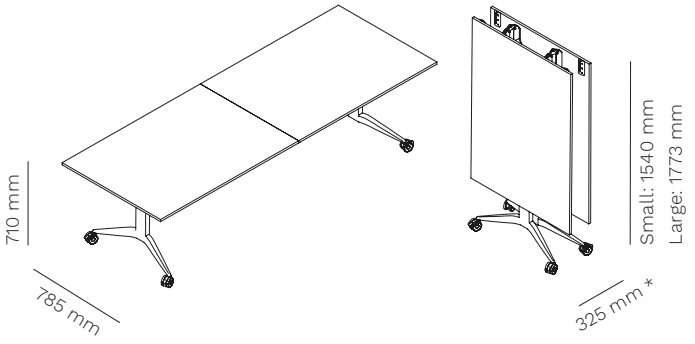

DESCRIPTION / DESCRIZIONE

en **Savio's collection of multifunctional and space-saving tables expands with the new Libro Compact version. A solution that, thanks to its technical-structural design, allows a further optimisation of the shipping volumes that are reduced by four hundred percent.**
Savio leg, characterised by a perfect mix of soft curves and straight lines, thus returns as a protagonist thanks to a new solution for living and organising new spatial configurations.
The table has the exclusive antishock system, designed and patented by Mara.

it La collezione di tavoli multifunzionali e salvaspazio Savio si amplia con la nuova versione Libro Compact.
Una soluzione che, grazie alla propria conformazione tecnicostrutturale riduce del quattrocento percento il volume di spedizione.
La gamba Savio, caratterizzata da un mix perfetto di curve morbide e linee rette, torna così protagonista grazie ad una nuova soluzione per vivere ed organizzare nuove configurazioni spaziali.
Il tavolo è dotato dell'esclusivo sistema antishock brevettato Mara.

CLEANING AND MAINTENANCE / PULIZIA E MANUTENZIONE

STEEL / ACCIAIO

en **Our types of metals include: chromed metals and painted metals. Do not use acid or alkaline based cleaning products. Do not use detergents, steel wool, dishwashing detergents or the like. Sharp or pointed objects may damage the surface. Any hot or wet object may cause surface damage. Clean the surface regularly with a soft cloth to remove dust. To remove light dirt, use a soft cloth and a neutral household cleaner.**

it Le nostre tipologie di metallo comprendono: metalli cromati e metalli verniciati. Non utilizzare prodotti per la pulizia a base acida o alcalina. Non utilizzare detergenti, lana di acciaio, detersivi per stoviglie o simili. Oggetti appuntiti o taglienti possono danneggiare la superficie. Qualsiasi oggetto caldo o bagnato potrebbe provocare danni alla superficie. Pulire la superficie regolarmente con un panno sofficie per rimuovere la polvere. Per rimuovere lo sporco leggero utilizzare un panno sofficie e un prodotto per le pulizie di casa neutro.

LAMINATE AND MELAMINE / LAMINATI E NOBILITATI

en **Laminates and melamine products guarantee high performance in terms of resistance to scratches, shocks and abrasions. Keep furniture away from direct sunlight; furniture in direct sunlight may tend to discolour over time. Do not use acid or alkaline based cleaning products. Sharp or pointed objects can damage the surface. Laminate and melanine furniture can be cleaned using a mixture of liquid soap and hot water. Rinse with cold water and dry with a paper towel or damp cloth.**

it Laminati e nobilitati garantiscono alte prestazioni di resistenza ai graffi, agli urti e alle abrasioni. Mantenere i mobili lontani dalla luce diretta del sole; i mobili che si trovano alla luce diretta del sole potrebbero tendere a scolorire nel tempo. Non utilizzare prodotti per la pulizia a base acida o alcalina. Oggetti appuntiti o taglienti possono danneggiare la superficie. E' possibile effettuare la pulizia dei mobili in laminato e nobilitato usando una miscela di sapone liquido e acqua calda. Sciacquare con acqua fredda e asciugare con un tavogliolo di carta o un panno umido.

STANDARD FENIX TOPS / PIANI STANDARD IN FENIX

en **Cleaning FENIX means cleaning its structure. You can do this with warm water. As FENIX is a strong material, you can also use any household cleaner – even solvents like acetone * if needed. However, to avoid damaging the structure, don't scrub it with abrasive cream, a scouring pad or a hard brush; in the long-term, this might lead to a glossy spot on your matt surface. Instead, you can use a melamine sponge – also known as a magic sponge.**
As a final step, to avoid anything staying behind in the structure – whether that's dirt or residue from your cleaner – always rinse afterward with warm water and wipe dry with a clean cloth.
*** always follow safety instructions**

it Pulire FENIX significa pulirne la struttura. Si può farlo, usando acqua tiepida. Poiché FENIX è un materiale resistente, si può utilizzare qualsiasi detergente per la casa, se necessario anche un solvente come l'acetone *. Tuttavia, per evitare di danneggiare la struttura, è consigliabile evitare di strofinarla usando una crema abrasiva, una spugna abrasiva o una spazzola con setole dure; nel tempo, ciò potrebbe portare alla formazione di un'area lucida sulla superficie opaca. Si può piuttosto utilizzare una spugna in melamina, nota anche come spugna magica.
Come ultimo passaggio, per evitare la formazione di depositi nella struttura, che si tratti di sporco o residui del detergente, risciacquare sempre con acqua tiepida e asciugare con un panno pulito.
* seguire sempre le istruzioni di sicurezza.

SAVIO TILTING / design Francesco Barbi
227R

DESCRIPTION / DESCRIZIONE

en **Savio is a tilting table with a handy system to easily open and close the table top. A smart, solid and functional product, designed for offices and work environments where space saving is crucial.**
The metal frame is realized on the Mara premises with dedicated molding and laser cutting machines, according to high quality standards. The castors with brake simplify the movement and stacking.

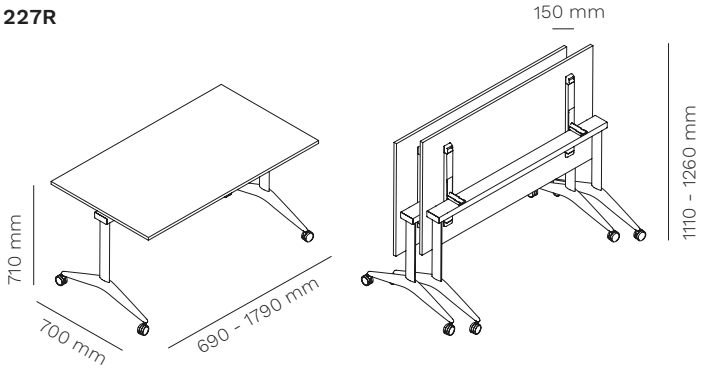

Design and functionality, for a table Catas EN 15372:2008 certified.

it Savio Tilting è un tavolo ribaltabile dotato di un pratico sistema di apertura e bloccaggio del piano. Un prodotto di design robusto e funzionale, pensato per uffici e ambienti di lavoro dove è fondamentale lo space saving.
La struttura metallica viene realizzata all'interno dei reparti produttivi Mara con macchinari di stampaggio dedicati e taglio laser, nel rispetto di elevati standard qualitativi. Le ruote con freno ne facilitano la movimentazione e l'accatastamento.

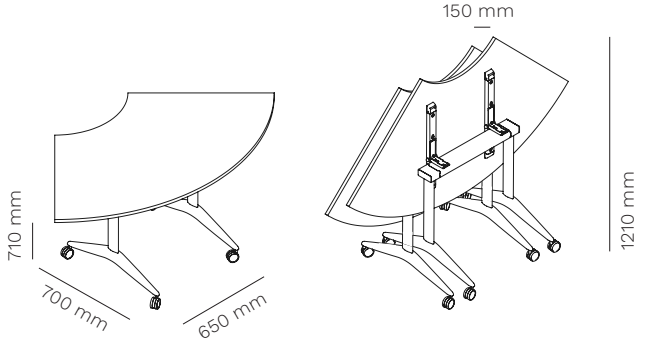

Design e praticità, per un tavolo certificato Catas EN 15372:2008.

CLEANING AND MAINTENANCE / PULIZIA E MANUTENZIONE

STEEL / ACCIAIO

en **Our types of metals include: chromed metals and painted metals. Do not use acid or alkaline based cleaning products. Do not use detergents, steel wool, dishwashing detergents or the like. Sharp or pointed objects may damage the surface. Any hot or wet object may cause surface damage. Clean the surface regularly with a soft cloth to remove dust. To remove light dirt, use a soft cloth and a neutral household cleaner.**

it Le nostre tipologie di metallo comprendono: metalli cromati e metalli verniciati. Non utilizzare prodotti per la pulizia a base acida o alcalina. Non utilizzare detergenti, lana di acciaio, detersivi per stoviglie o simili. Oggetti appuntiti o taglienti possono danneggiare la superficie. Qualsiasi oggetto caldo o bagnato potrebbe provocare danni alla superficie. Pulire la superficie regolarmente con un panno sofficie per rimuovere la polvere. Per rimuovere lo sporco leggero utilizzare un panno sofficie e un prodotto per le pulizie di casa neutro.

CHROMED STEEL AND ALUMINIUM POLISHED / ACCIAIO CROMATO E ALLUMINIO LUCIDO

en **Do not use acid or alkaline based cleaning products. Do not use detergents, steel wool, dishwashing detergents or the like. Sharp or pointed objects may damage the surface. Any hot or wet object may cause surface damage. Clean the surface regularly with a soft cloth to remove dust. To remove light dirt, use a soft cloth and a neutral household cleaner**

Pulire la superficie regolarmente con un panno sofficie per rimuovere la polvere. Per rimuovere lo sporco leggero utilizzare un panno sofficie e un prodotto per le pulizie di casa neutro.

LAMINATE AND MELAMINE / LAMINATI E NOBILITATI

en **Laminates and melamine products guarantee high performance in terms of resistance to scratches, shocks and abrasions. Keep furniture away from direct sunlight; furniture in direct sunlight may tend to discolour over time. Do not use acid or alkaline based cleaning products. Sharp or pointed objects can damage the surface. Laminate and melanine furniture can be cleaned using a mixture of liquid soap and hot water. Rinse with cold water and dry with a paper towel or damp cloth.**

it Laminati e nobilitati garantiscono alte prestazioni di resistenza ai graffi, agli urti e alle abrasioni. Mantenere i mobili lontani dalla luce diretta del sole; i mobili che si trovano alla luce diretta del sole potrebbero tendere a scolorire nel tempo. Non utilizzare prodotti per la pulizia a base acida o alcalina. Oggetti appuntiti o taglienti possono danneggiare la superficie. E' possibile effettuare la pulizia dei mobili in laminato e nobilitato usando una miscela di sapone liquido e acqua calda. Sciacquare con acqua fredda e asciugare con un tavogliolo di carta o un panno umido.

STANDARD FENIX TOPS / PIANI STANDARD IN FENIX

en **Cleaning FENIX means cleaning its structure. You can do this with warm water. As FENIX is a strong material, you can also use any household cleaner – even solvents like acetone * if needed. However, to avoid damaging the structure, don't scrub it with abrasive cream, a scouring pad or a hard brush; in the long-term, this might lead to a glossy spot on your matt surface. Instead, you can use a melamine sponge – also known as a magic sponge.**
As a final step, to avoid anything staying behind in the structure – whether that's dirt or residue from your cleaner – always rinse afterward with warm water and wipe dry with a clean cloth.
*** always follow safety instructions**

it Pulire FENIX significa pulirne la struttura. Si può farlo, usando acqua tiepida. Poiché FENIX è un materiale resistente, si può utilizzare qualsiasi detergente per la casa, se necessario anche un solvente come l'acetone *. Tuttavia, per evitare di danneggiare la struttura, è consigliabile evitare di strofinarla usando una crema abrasiva, una spugna abrasiva o una spazzola con setole dure; nel tempo, ciò potrebbe portare alla formazione di un'area lucida sulla superficie opaca. Si può piuttosto utilizzare una spugna in melamina, nota anche come spugna magica.
Come ultimo passaggio, per evitare la formazione di depositi nella struttura, che si tratti di sporco o residui del detergente, risciacquare sempre con acqua tiepida e asciugare con un panno pulito.
* seguire sempre le istruzioni di sicurezza.
